

# *Polystone*

## Home Use Gel Polish

# HEY. THIS IS FOR YOU!

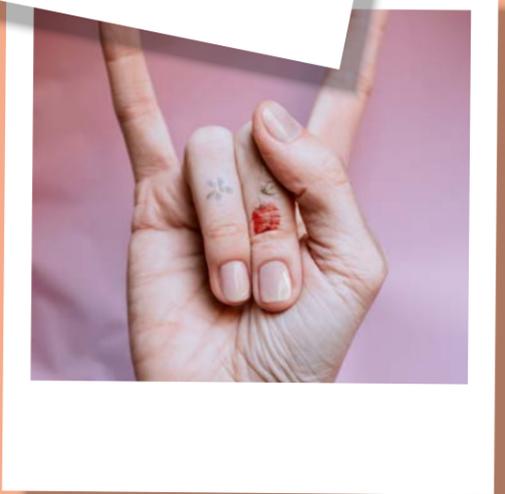

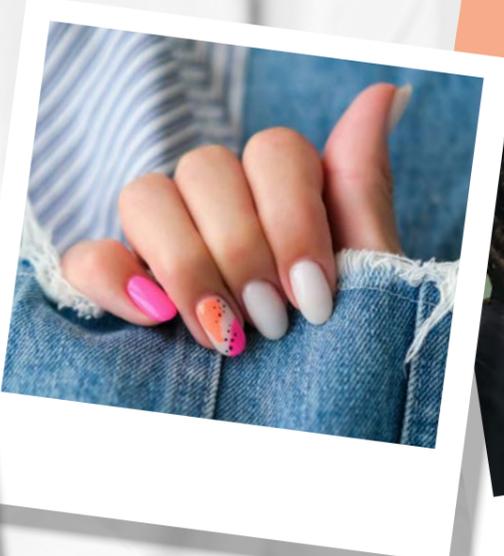

**Did you know ...?**  
The usage of UV gels and gel polishes is limited to professionals in salons and nail bars because the contained HQME and HEMA is prohibited for home use by European Cosmetics regulation.

Well, stand to change. Innovations by because that's all about Our talented Polystone Team has now successfully developed HQME and HEMA free gel polishes, made to the same high-quality standards used in salons for years, that are completely safe for home use.

Our brand new, highly innovative formula is exactly what the market's been waiting for.

Salon quality gels that can finally be used at home.

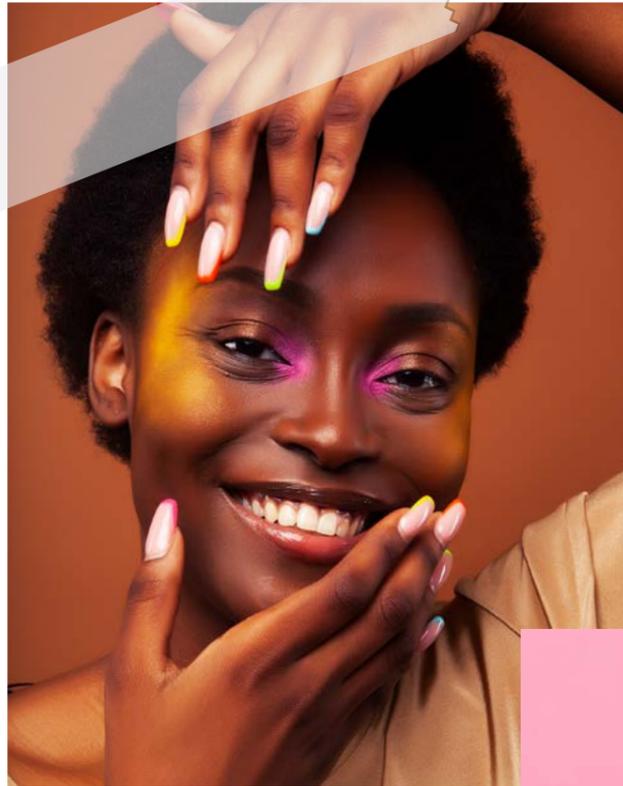

**DARE TO BE DIFFERENT!**

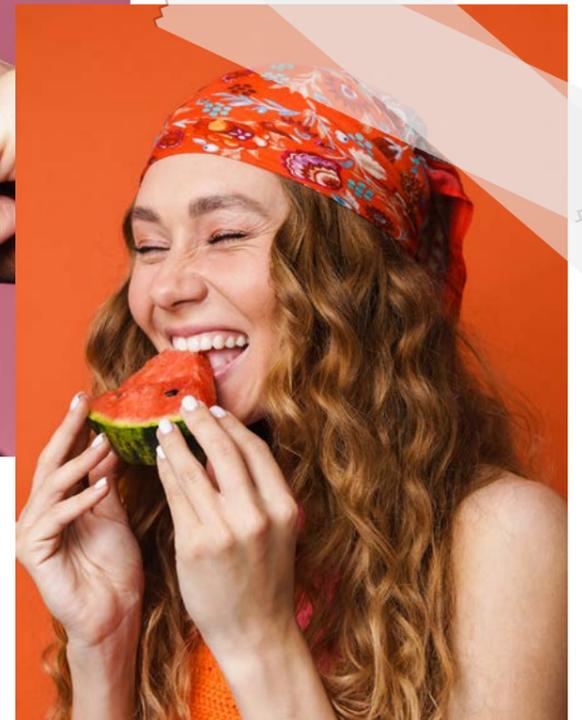

*Discover a world of colour*

HEY. THIS IS FOR YOU!

Get creative and express your individuality with amazingly vibrant colours

Let your imagination run wild.

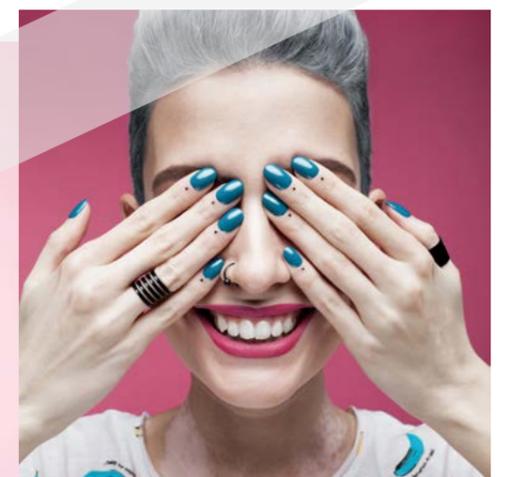

Salon quality gels to use in your own home.

Comprehensively and successfully tested, these amazing gel varnishes, with their high gloss and intense colours are of consistently high quality and vegan, so they're cruelty free too.

It's what you've come to expect from Polystone Chemical 'quality made in Germany'. And with thousands of gels and customers in 80 countries, our passion for creating modern, industry-leading products for the cosmetic nail industry has now been going strong for more than 30 years.

So, get onboard. The simple fact that the home cosmetic nail market has enormous pent-up demand for these types of products means there's huge sales potential. Don't miss out on this great opportunity to tap into the new and highly significant home use market.

## MADE IN GERMANY

With manufacturing capacity running at over 100 tons per year, we are one of the largest producers worldwide.

With our headquarter in Germany and our facilities in France, we are manufacturing according to the highest environmental and production standards.

We have a significantly lower carbon footprint compared to Far East imports, which is simply better for you and the planet.

## HOW IT WORKS

- 1 Buff nail lightly with a 180 file, clean with Polystone nail cleaner
- 2 For best results apply Nail Prep P0001 and allow to air dry for a few seconds
- 3 Apply base coat BASE-1 or RUBB-1 as bonding gel
- 4 Cure for 30-60 sec under LED lamp (do not remove tacky residue)
- 5 Shake gel polish colour SOCO bottle well and apply a thin coat
- 6 Cure for 30-60 sec under LED lamp (do not remove tacky residue)
- 7 For improved coverage repeat steps 5 and 6
- 8 Apply gloss gel FIGL
- 9 Cure for 30-60 sec under LED lamp. If you are using a top coat with tacky residue, wipe with Polystone Cleaner

The adjoining pictograms are used in these catalogue to show the available packaging sizes.

**Curing conditions:** All products are tested under the standard conditions below. Due to the big variety of different lamps and different ways of application, we recommend curing tests before usage to find the optimum conditions depending on lamp and application. UV lamp: 4 x 9 W, 120 sec. Combi-LED lamp: 48 W, 60 sec.

# MADE IN GERMANY. LOVED ALL OVER THE WORLD.

We nailed it: Founded in Oberweiler im Tal, Germany, in 1989 with just two employees, we've grown to become a leading international manufacturer of UV gels. Our team of 67 is now responsible for producing a unique range of products, at our 8,000 m<sup>2</sup> manufacturing plant, comprising 1,700 innovative gels for clients in 80 countries worldwide.

In 2002 we also expanded our product palette to include Permanent Makeup Tattoo Colours.

In 2021 the former owner Hans Hubrich sold his shares to Perrot Duval Group, which is headquartered in Switzerland. The management of Polystone Chemical GmbH takes over the existing long-term management.

## Quality always up-to-date

So what's the secret of our success? It's a combination of our desire to continue innovating, a clear focus on the needs of our customers, a keen eye for the latest trends and fashions plus limitless passion for what we do.

Each new product development not only profits from 30 years of experience and know-how, but a generous portion of passion for what we do. Our own research lab works tirelessly to create new products, of the highest quality, for a growing national and international customer base that has learnt to rely on 'quality made in Germany'.

**It's all about the right Chemistry.  
... and the quality, the service and the products.**

Take the opportunity and listen to what our existing customers have to say about what we do. Or just take a look at some of the facts that speak for themselves, here are five to consider:

## Innovation and Variety

With a range encompassing 1,700 products, Polystone stands for one of the most comprehensive and varied product ranges worldwide.

Our highly skilled in house market research department guarantees a speedy response to swings in fashions. Whilst our own product development team is able to create up to 400 new colours every year. And the most important components in this process are experience, know-how and passion.

## Quality Guarantee

What's the use of a promise without a guarantee? We guarantee consistent quality for all our products by strictly observing GMP quality controls, guided by the most stringent testing parameters.

- Minimal tolerance for quality fluctuations during production
- Testing of all raw materials and deliverables
- Chronographic purity testing of quality materials with the latest technology (HPLC)
- Secure monitoring of any deviation from purity levels
- Certification of all products according to cosmetic GMP (ISO 22716:2007) and manufacture adhering to guidelines set out by the cosmetics and tattoo industries
- Exacting product quality controls

## Made in Germany

For almost 30 years, we've been developing and manufacturing our products exclusively at our German base. Modern labs, state-of-the-art production facilities, 20 highly specialised experts – an exemplary team, ensure 'quality made in Germany'.

**100%** Service Quality Satisfaction

## Customer First

Your requirements are of primary importance to us, and that goes for both, service levels and product choices. When we work with your ideas, we'll be prove to be a competent and reliable business partner. You make the decisions; we take care of the rest. From bulk deliveries to the manufacture of your 'own brand' products, we will partner you along the way and provide professional support for the development and manufacture of your ideas including labelling, inserts and packaging.

## Full Product Documentation

Customer satisfaction is important to us. That's why we guarantee that we'll adhere to all guidelines, providing comprehensive product documentation and international product registrations. Our service provides you with: INCI, MSDS, COA, PID, CPNP certification.
